

## **Busy Year in Argentia - 2011**

The Port of Argentia as this photo indicates, is a very busy port this year. High berth file rates combined with overflowing of laydown yards are the order of business. Cargo is arriving at the Port through new companies for Vale, regular shipping by Eimskip, Clearwater, Holcium and others has grown throughout the season. High port utilization is expected to continue throughout the fall of 2011 and continue into 2012.
