

## **Port of Argentia 2006**

Argentia Shipping News - June 2006

The Argentia Port Corporation Inc. (APC) will provide current information relative to Port activities on a monthly basis, and we invite you to bookmark our website for future reference. Current activities:

- The Fleet Dock Reconstruction Project continues through April and May 2006. The concrete cope wall is being poured in four phases - two have been completed and the third is being prepared for completion. Scheduled completion dates are for the end of July and appear firm.
- The new Fleet Dock lighting system has been commissioned.
- St. Lawrence Cement operations have begun for another season.

### The Cruise Ship, Hanseatic

- On May 27, 2006 the cruise ship, Hanseatic, made an unscheduled visit to the Port. All operations were performed to cruise line representative satisfaction. • Port traffic increased during the month of May.
- Several freighters carrying steel pipe have been worked at the Port in April and May 2006.
- Metal World fabrication operations are expected to be in operation again this year.
- The Port receives and responds to inquiries about the Port and its operations on a continual basis. The Port web site established by the AMA also provides the necessary information on the Port at this time.
- The MV Ocean Concord, owned and operated by Grand Bank Seafoods, continues offloading cargo in Argentia on a regular basis.
